

CD-099 - Level sensor/Suction Lance

Spare Part Number: CD-099

Net Weight: 0.00kg

Net Dimensions: 0.00cm x 0.00cm x 0.00cm

Technical Datasheet: [Protected Link](#)

Description

CD-099 Level sensor/Suction Lance

The suction lance is designed to continuously measure and display a value (the solution level) on the pump display, in percent or litres. This device needs to be coupled with the appropriate diaphragm metering pump or peristaltic metering pump. This suction lance works very well with feed chemicals containing a lot of water, such as diluted acids and alkalis, sodium-calcium hypochlorite. The dielectric constant ϵ_r must be higher than 30. It does not work with feed chemicals, such as pure oil or fats.
