

# CH-023 - Pre-Heating resistor

**Spare Part Number:** CH-023  
**Net Weight:** 0.00kg  
**Net Dimensions:** 0.00cm x 0.00cm x 0.00cm

## Description

### CH-023 Pre-Heating Resistor

Quartz heating is a type of radiant heating, commonly referred to as short-wave infrared heating. The tubes are manufactured from quartz glass (fused silica), which protect and support the heating coils. They provide efficient transmission of infra-red radiation, good resistance to chemical and contamination.

Heating coils are wound in various grades of iron-chrome-aluminium alloys to match the applications and operating conditions, and typically generate radiant emission in the short to medium wavelength range.

**Heating resistor** quartz 8x12x???? 1200W

## Equipment Reference

810 for pre-heating
